Welcome to the Google Drive area for Translating Python for Informatics slides.

This is a shared Google Drive area that I use to enable the slides for Python for Informatics to be translated into multiple languages. Three languages have complete translations:

- Italian

- French

- Russian

All of the completed and in-progress translations are available here:

Google Drive PR4E Slides

Since these translations are crowd-sourced, I personally cannot vouch for any of the languages other than my original English language versions. If you see a problem, feel free to join the above Google Group and let us know.

If you would like to participate in the translation efforts, please join this Google Group:

https://groups.google.com/forum/#!forum/py4inf

Let us know what you think.
